

# April is National Child Abuse Prevention Month

Define How **YOU** Will Help Prevent Child Abuse  
For suspected abuse, call 1-800-CHILD

## 1. SIGN UP

Go ahead; call, e-mail, drop by and sign your name on the dotted line. START. Volunteer as a [CASA](#). Become a [Safe Family For Children](#). Take [Darkness To Light's Stewards of Children training](#).

## 2. SPONSOR

Perhaps you see the incredible worth of a program or training like [Darkness To Light's Stewards of Children](#) or the Mandated Reporter Training and want your "footprint" to be more pronounced. Sponsor your Sunday School Class, your civic group and your business.

## 3. SUPPORT

Maybe you've got the money but can't find the time. Take some time to review Troup County's many services proven to reduce the likelihood of abuse, promote the wellbeing and healing of child victims of abuse or increase the stability of family units.

## 4. FOSTER

While we want all adults in Troup County to participate in the Stewards of Children training, we need encouragement and nurturing for other programs that help protect children. Twin Cedars' Safe Families is just one such program.

## 5. RESURRECT

If you participated before Easter 2015, you need to resurrect that knowledge with a refresher. When you do so, bring a friend.
